FEEDBACK COMMITTEE REPORT 2021-22

Feedback on Curriculum

Objective:-

MNR Dental College aims to offer the best possible learning experience to encourage students to perform to their full potential. The feedback committee of the college thus, designed feedback forms framed with structured questions, which were relevant and related to various aspects of the present curriculum. In addition to the previously added suggestions section few extra relevant questions were also added to a few forms. This plays a key role in assessing the success of academic provision in relation to the expectations of various stakeholders.

Methodology:-

The questionnaires in the form of google forms were circulated among the stakeholders like students, teachers, employers, alumni and professionals. The whole process was done in an entirely confidential manner. Their responses regarding the curriculum were assessed on several parameters using the Likert type four point scale ranging from Very Good to Unsatisfactory. The parameters that were included are learning value in terms of skills, concepts, knowledge, analytical abilities, applicability/ relevance to real life situations, depth of course content, extent of coverage of course, clarity and relevance of reading material etc.

Analysis & Results:-

Responses given by the stakeholders were analysed by the chairperson of the committee. Results have been produced in the form of bar diagrams showing the percentage of different types of responses obtained.

Suggestions have been made by the feedback committee to address all the grievances related to curricular aspects. Accordingly, a relevant plan of action would be designed and carried out after the approval from higher authorities.

The following are the observations from the feedback obtained:

1. The students have requested to a library period and sports period to be included in the timetable.

2. The staff have requested the University to start a PhD program for them to be enrolled in.

3. A request for a member of BoS from the college was also put upon.

The feedback committee had taken the same to the notice of higher authorities for further deliberation.

FEEDBACK REPORT ON CIRRICULUM FOR THE YEAR 2020-2021

Feedback committee Report 2020-2021

The feedback committee at MNR Dental College conducted a survey for the feedback on various aspects on present curriculum from various stakeholders like students, parents, staff, alumni and professionals. The responses of this survey were analysed and results were drawn.

Type of feedback : Online

Method of feedback:

Feedback on curriculum includes the distribution of the feedback form framed with the questions which were relevant and related to the curricular aspects among various stake holders like students, parents, staff, alumni, professionals and employers. This plays a central part in ensuring that professional education institutions are successful and can be captured at all levels of an institution in various ways. At MNR dental college the feedback on curriculum is obtained by creating online survey questionnaire forms with all the framed questions on various curricular aspects and these forms are distributed to all the stakeholders. The responses given by the stakeholders are analysed by chairperson of the committee and they are in the form of pie diagrams showing the percentage of different types of responses. One section of this questionnaire form is suggestions from the stakeholders where they can suggest any improvements that are to be implemented in the curricular aspects. This is followed by drawing up a plan of action on the responses obtained. A relevant plan of action is designed according the recorded responses and all the grievances related to curricular aspects are addressed as a part of this and implementation of this plan of action is carried out after the approval from institutional IQAC.

FEEDBACK REPORT ON CIRRICULUM FOR THE YEAR 2019-2020

FEEDBACK COMMITTEE REPORT 2019-20

Feedback on Curriculum

Objective:-

MNR Dental College aims to offer the best possible learning experience to encourage students to perform to their full potential. The feedback committee of the college thus, designed feedback forms framed with structured questions, which were relevant and related to various aspects of the present curriculum. An additional suggestions section was added to the questionnaire. This plays a key role in assessing the success of academic provision in relation to the expectations of various stakeholders.

Methodology:-

The questionnaires were circulated among the stakeholders like students, teachers, employers, alumni and professionals. Duly filled forms were collected from them. The whole process was done in an entirely anonymous and confidential manner. Their responses regarding the curriculum were assessed on several parameters using the Likert type four point scale ranging from Very Good to Unsatisfactory. The parameters that were included are learning value in terms of skills, concepts, knowledge, analytical abilities, applicability/ relevance to real life situations, depth of course content, extent of coverage of course, clarity and relevance of reading material etc.

Analysis & Results:-

Responses given by the stakeholders were analysed by the chairperson of the committee. Results have been produced in the form of bar diagrams showing the percentage of different types of responses obtained.

Suggestions have been made by the feedback committee to address all the grievances related to curricular aspects. Accordingly, a relevant plan of action would be designed and carried out after the approval from higher authorities.

The following are the observations from the feedback obtained:

Many students had a grievance regarding the connectivity issues during online classes due to which they were unable to follow certain lectures that were held online.

The staff have requested to conduct faculty development programs about e-content and online teaching.

The feedback committee had taken the same to the notice of higher authorities for further deliberation and relevant action to be taken.
