PROGRAM REPORT

Program Name: "Funding in research methodology"

Date of activity: 4/6/2022

Venue: Demo Hall-II, Biochemistry .

Organized by: MNRDCH

Resource person: Dr Chandrakumar S, Professor, Lab Consultant ,Department of Pathology,
RVM Institute of Medical Sciences and Research Center, Siddipet, Telangana

Number of participants: 94 Students & 13 Faculty

Objective of the program

The main objective of the program is to know about research methodology and its importance. One of the most important aspects of a thesis, dissertation or research paper is the correct formulation of the aims and objectives. This is because your aims and objectives will establish the scope, depth and direction that your research will ultimately take.

Contents Delivered

- Understand the assignment
- Choose a research paper topic
- Conduct preliminary research
- Create a research paper outline
- Paragraph structure
- Citing sources

Outcome of the program

All the participants were welcomed and the event started with good note in the presence of Principal MNR Medical College & Hospital. The Event covered the aspects of the importance of research and research paper writing in medical field. The event also covered the importance of the research, quality of research, research paper writing and publishing in reputed journal. The overall methods to write paper, heading, domains to be considered while drafting paper and how to avoid plagiarism to enhance the uniqueness and quality of paper were discussed.

Date of activity: 30/5/2022

Venue: Lecture Hall V

Organized by: MNRDCH

Resource person: Dr. Sudhakar Bangera, MBBS, MD, MMedSc, Aileen.co.in

Number of participants: 78

Objective of the program

The primary objective of clinical research studies includes improvement in patient management. Most clinical research studies are aimed at discovering a new/novel drug to treat a medical condition that presently has no specific treatment, or the available drugs are not particularly effective in curing the disease.

Contents Delivered

- 1) Exploratory research and aims –
- 2) Descriptive aims –
- 3) Causal- Thank you for reading our article about aims of researches.

Outcome of the program

The participants of the program will get an idea about the "Clinical Research - Regulations and Guidelines". Outcomes (also called events or endpoints) are variables that are monitored during a study to document the impact that a given intervention or exposure has on the

ACTIVITY REPORT

Program Name: "Workshop on proper blood sample technique for Interns"

Date of activity: 8/03/2022

Venue: Lecture Hall-II,

Organised by: MNRDCH

Resource person: Dr Chandrakumar S, Consultant Pathologist, Lucid Diagnostics,
Secunderabad

Number of participants: 58

Objective of the program

The main objective of the workshop is to make everyone aware and know about the Arterial blood sampling technique.

- Understand what ABG samples measure and how to interpret the result.
- Demonstrate an understanding of the anatomy of arteries.
- Perform and be aware of dangers and complications of this invasive technique.
- To safely work towards competence.

Contents Delivered

- Arterial Puncture
- Anatomy of arteries
- Complications in doing arterial blood sampling

Outcome of the program

The workshop is conducted to have an idea about "Arterial blood sampling technique" arterial blood sample is collected from an artery, primarily to determine arterial blood gases.

ACTIVITY REPORT

Program Name: "Workshop on Reference management in research"

Date of activity: 09/02/2022

Venue: Demo Hall-II,

Organized by: Dept. Of Oral Pathology

Resource person: Dr. John Paul, Secretary IDA

Number of participants: 36

Objective of the program

The main objective of the program is to know about research methodology and its importance. One of the most important aspects of a thesis, dissertation or research paper is the correct formulation of the aims and objectives. This is because your aims and objectives will establish the scope, depth and direction that your research will ultimately take.

Contents Delivered

- Understand the assignment
- Choose a research paper topic
- Conduct preliminary research
- Create a research paper outline
- Paragraph structure
- Citing sources

Outcome of the program

All the participants were welcomed and the event started with good note in the presence of Principal MNR Dental College & Hospital. The Event covered the aspects of the importance of research and research paper writing in medical field. The event also covered the importance of the research, quality of research, research paper writing and publishing in reputed journal. The

PROGRAM REPORT

Program Name: "Workshop on basic statistical analysis"

Date of activity: 20/12/2021

Venue: Biochemistry Demo Hall 2

Organized by: MNRDCH

Resource person: Mr Simhadri M, Data Scientist & Lecturer, Aditya Degree College Kakinada.

Number of participants: 48

Objective of the program

The main purpose of Statistical Quality Control is to derive statistical techniques which would help us in separating the assignable causes of variation from the chance causes of variation, thus enabling to take actions whenever assignable causes are present in the production process.

Contents Delivered

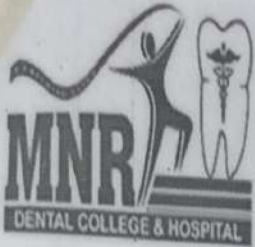

- TRAINING METHODOLOGY
- ORGANISATIONAL IMPACT

Outcome of the program

- A good understanding and extensive practical experience of a range of common analytical techniques and interpretation methods for numerical data

ACTIVITY REPORT 4

ROLE OF BIOTECHNOLOGY IN ADDRESSING ZONOTIC DISEASE

NAME OF THE ACTIVITY: Role of biotechnology in addressing zoonotic disease

FACULTY INVOLVED: Dr. Suman Joshi, MNR FRI

RESOURCE PERSON: Dr. Nagender R. Hegde, scientist-H and director of the national institution of animal biotechnology

DATE: 07 / 09 / 2021

TIME: 10:00 am -11:00 pm

LOCATION: lecture hall 5

AUDIENCE: post graduates, under graduates, staff.

CONTENT DELIVERED: Importance of biotechnology in identifying the zoonotic diseases and helping in eradicating the diseases.

DESCRIPTION OF COURSE: the session began with a welcoming note by the principal of MNR medical college. The speaker addressed the faculty and the students and welcomed their presence.

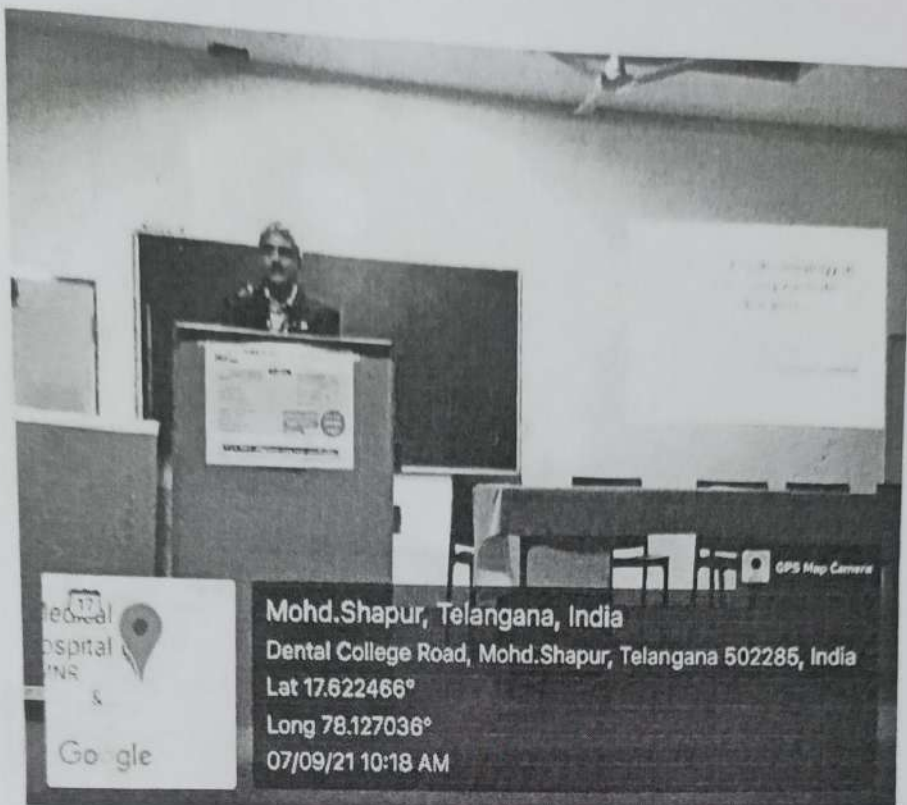

a detailed presentation was given on use of biotechnology in the management of zoonotic diseases occurring. The audience discussed about the present situation of covid 19 and its transmission from zoonotic animals.

ATTENDANCE: 85

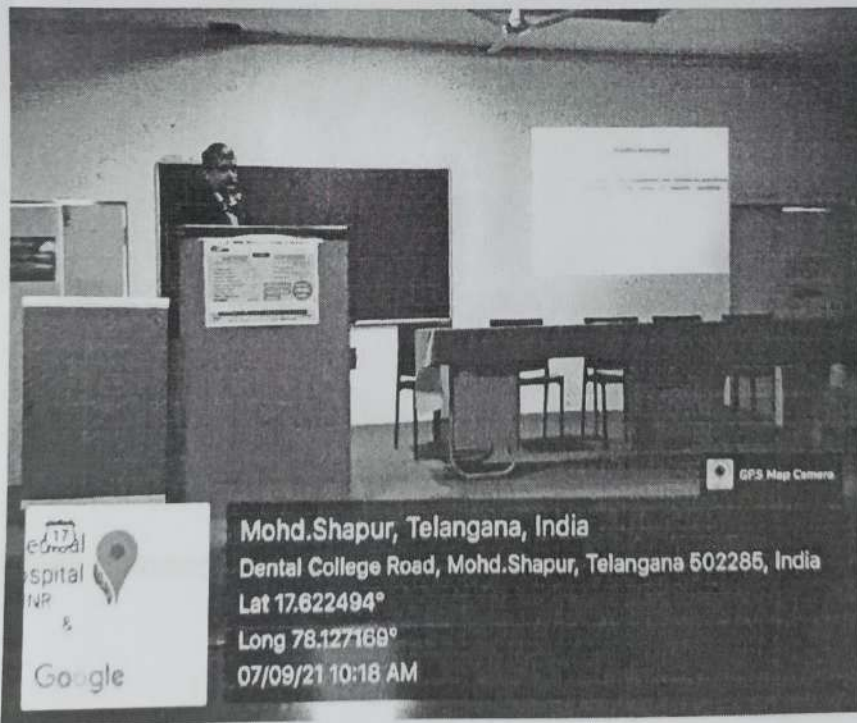

CONCLUSION: session was concluded by vote of thanks.

Date: 28/8/2021

PROGRAM REPORT

Program Name: "Seminar on Patents and ADR"

Date of activity: 28/8/2021

Venue: Demo Hall-II, Biochemistry, and Microbiology Laboratory

Organized by: MNRDCH

Resource person: DR.SURYAMANI TRIPATHI,LEAGAL COUNCIL,ICRISAT,HYDERABAD

Number of participants: 174

Objective of the program

The main objective of the seminar is to to analyze the clinical characteristics and reporting quality of adverse drug reactions (ADRs) by undergraduate medical students in comparison with physicians' reporting.

Contents Delivered

We sensitized the second professional year undergraduate medical students about pharmacovigilance and asked them to submit reports of ADR observed during their clinical posting from January to December 2015. We compared students' reports with those sent by physicians (Department of Medicine and Allied Branches, Paediatric, Obstetrics and Gynaecology) of our institute during the same time period. We included ADRs of "certain," "probable," or "possible" categories as per the World Health Organization causality definitions in analysis of both groups. We excluded "unlikely," "unclassified," and "unclassifiable" causality ADRs from the analysis due to questionable association of reactions with suspected

E-mail: mnrdc@mnrindia.org; Website: www.mnrindia.

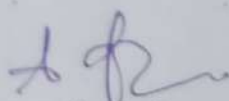

drugs. We collected data of demographics, pattern of ADRs, causative drugs, seriousness, other clinical characteristics, and quality of reporting.

Outcome of the program

Students' reported valuable and clinically relevant ADRs. Dental students should be exposed to ADR reporting during their clinical teaching posting and should be actively involved in pharmacovigilance program to improve detection rate.

PROGRAM REPORT

Program Name: "Seminar on Hand hygiene among technicians and nurses"

Date of activity: 10/06/2022

Venue: Demo Hall-II, Biochemistry

Organized by: MNRDCH ,

Resource person: Dr Ravi Kumar, Lab Consultant, Ministry of Health Hospital Kingdom of Saudi Arabia.

Number of participants: 10

Objective of the program

To assess the level of knowledge and attitude regarding hand hygiene practices amongst the health care professionals and to identify areas of gaps in their knowledge and attitude.

Contents Delivered

- Introduction
- Materials and methods
- Discussion

Outcome of the program

Present study highlights the importance of training sessions regarding hand hygiene practices among the residents and staff nurses to provide the current and updated knowledge in the area of nosocomial infections and prevention of infections. It would also translate in a behavioral change of attitudes and practices that would help in reducing the incidence of nosocomial infections.
