PROGRAM REPORT

Program Name: "Seminar on Legal aspects in medical field"

Date of activity: 13/05/2019

Venue: Demo Hall-II, Biochemistry

Organized by: MNRDCH

Resource person: Dr Kiran Kumar J, Professor, Department of Forensic Medicine, St Paul's Hospital & Millennium Medical College, Ethiopia

Number of participants: 98

Objective of the program

A medico-legal case is essentially a medical case with legal implications. A medical case becomes a medico-legal case when the attending doctor clinically examines the patient and their history and forms the opinion that an investigation by law enforcement is needed.

Contents Delivered

- Ethical and legal issues in medical practice.
- Why are legal aspects important?
- What are medical ethics?

Outcome of the program

The participants of the Seminar will be able to understand the knowledge on Documentation is legal protection for both patient and physician in the dispute over care. Failure to document important details can lead to adverse patient outcomes and malpractice suits.

Resource person: Dr Anurag Yadav, Assist prof, Department of Biochemistry, Father Muller
Medical College Mangalore.

Number of participants:30

Objective of the program

Laboratory accreditation activities are administered under the direction of the National Accreditation Board for Testing and Calibration Laboratories (NABL), involving assessment team and accreditation committee as recommending authorities. NABL is a signatory to Asia Pacific Accreditation Cooperation (APAC) and International Laboratory Accreditation Cooperation (ILAC) through Mutual Recognition Arrangements (MRA). These are based on mutual evaluation and acceptance of other MRA partners. Such international arrangements allow acceptance of test / calibration results between MRA partner countries.

Contents Delivered

The requirements in this document on specific criteria are based on the International Standard, ISO 15189:2012 - “Medical laboratories – Requirements for quality and competence”. It specifies requirements for competence and quality that are particular to medical laboratories. The laboratory’s compliance to requirements of the standard and its technical competence are assessed by NABL for accreditation. The specific criteria document must be used in conjunction with ISO 15189:2012. It provides an interpretation of the latter document and describes specific
