FACULTY DEVELOPMENT PROGRAMME ON

CLINICAL DIAGNOSIS IN PERIODONTICS

ACTIVITY REPORT

NAME OF THE FACULTY DEVELOPMENT PROGRAMME: CLINICAL DIAGNOSIS IN PERIODONTICS

CONDUCTED ON: 20 JULY 2018

INSTITUTION: MNR DENTAL COLLEGE AND HOSPITAL.

CONDUCTED BY: FACULTY DEVELOPMENT COMMITTEE

CONTENT DELIVERED: Diagnosis has important implications for patient care, research and policy. Content highlights the mounting complexity of healthcare, due to the ever increasing options for diagnostic testing and treatment, the rapidly rising levels of biomedical and clinical evidence to inform clinical practice, and the frequent comorbidities among patients, as well as potentially affecting the effectiveness and efficiency of care delivery.

AUDIENCE: Faculty of MNR Dental college

DESCRIPTION: The event started with a welcome note by Dr.K.A.Ravivarma. The event was started with lamp lighting by Dr.Ravivarma, Dr.shashikathhedge, Dr.B.Anitha, Dr.RupaRani, Dr.Deepika and Dr.Maruti. It was followed by a detailed discussion by the guest speaker Dr.Shashikanth Hegde on “Clinical Diagnosis in Periodontics”.

Later all the queries were answered.

A brief summary was given by Dr.KrishnanVishwanatham on recent advances in clinical diagnosis.

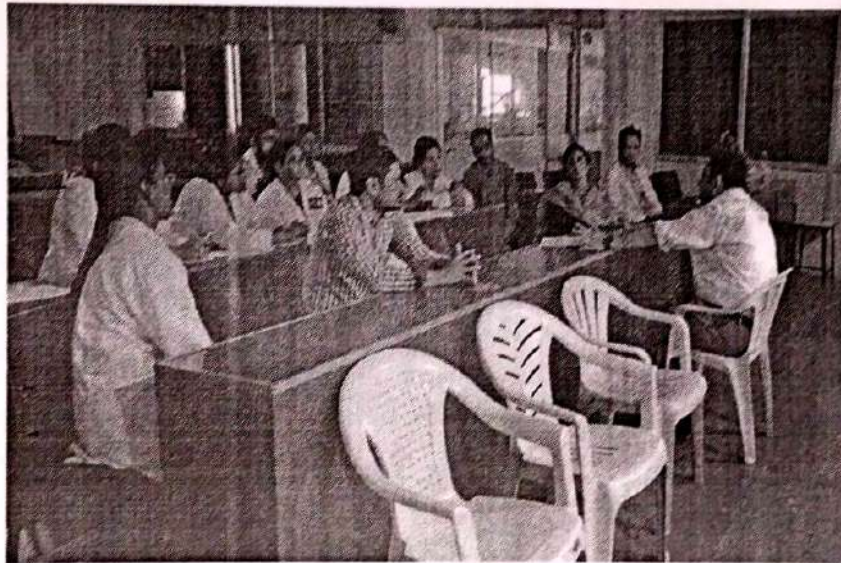

Later, Dr.Ravivarma; HOD addressed the gathering.

CONCLUSION: The event ended with a thank you note by faculty Dr.Anitha.

FACULTY DEVELOPMENT PROGRAMME ON ENDODONTIC DIAGNOSIS AND TREATMENT PLANNING

ACTIVITY REPORT

NAME OF THE FACULTY DEVELOPMENT PROGRAMME: Endodontic diagnosis and treatment planning

DATE: 11/08/2018

VENUE: MNR Dental College

SPEAKER: Dr. Pavan Kumar

FACULTY INCLUDED: Faculty of MNR Dental College

CONTENT DELIVERY: Power Point Presentation

BRIEF DESCRIPTION : The event Endodontic Diagnosis and treatment planning started with inaugural speech by Dr. Vijetha , professor , Department of Conservative Dentistry and Endodontics, MNR Dental College and Hospital , welcoming all the faculty and speaker.

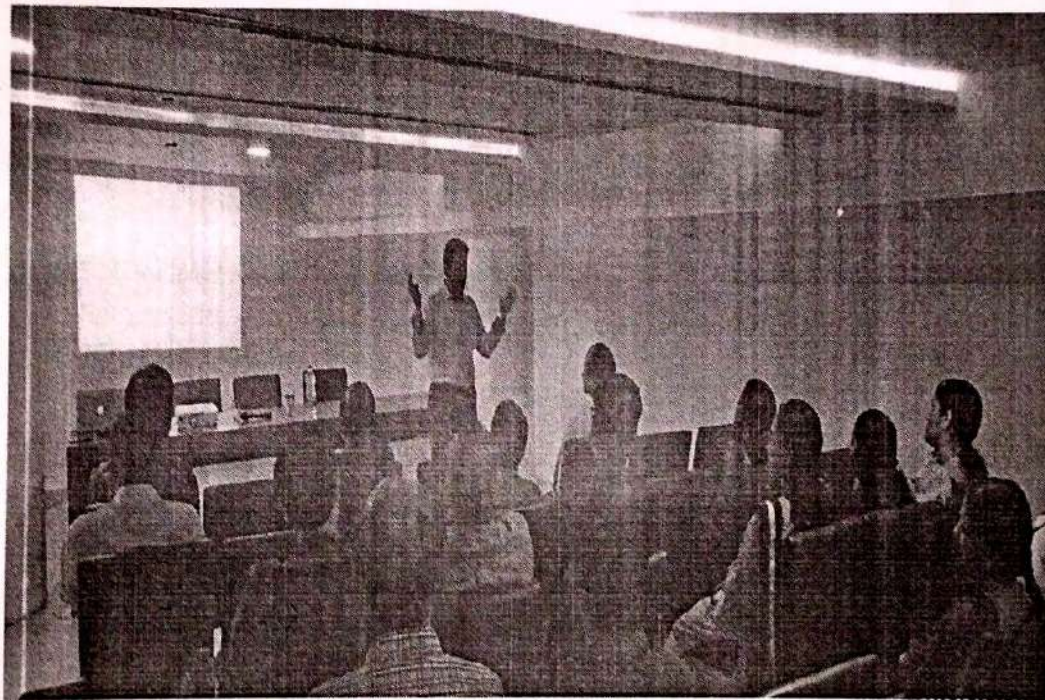

Endodontic diagnosis is similar to a jigsaw puzzle – diagnosis cannot be made from a single isolated piece of information. The clinician must gather all of necessary information to make a probable diagnosis. When taking the medical and dental history the clinician should already be formulating in his or her mind a preliminary but logical diagnosis, especially if there is a chief complaint. The clinical and radiographic examinations in combination with a thorough periodontal observation and clinical testing (pulp and periapical tests) are then used to confirm the preliminary diagnosis.

The programme was concluded by Dr. B. Anitha, Faculty Development Committee.

CONCLUSION: Significant knowledge on advances allows better understanding of multitude of factors that helps in the successful diagnosis of the problem and treatment planning.

FACULTY DEVELOPMENT PROGRAMME ON

STERILIZATION AND DISINFECTION

ACTIVITY REPORT

NAME OF THE PROGRAMME: STERILIZATION & DISINFECTION

CONDUCTED ON: 07-09-2018

SPEAKER: Dr.B.Rupa rani

JUSTIFICATION:The main concepts of STERILIZATION& DISINFECTION are important for routine clinical procedures. Safety issues& duration of sterilisation cycle in clinical settings have main role in proper sterilisation. Testing Procedures are key for evaluation of effectiveness of complete sterilisation.

CONDUCTED BY: Faculty Development Committee

REPORT OF THE ACTIVITY: The programme was conducted for one hour from 2 to 3 pm. The session begin with a welcoming note by Dr.Anitha. The speaker of the programme was Dr.Ruparani. The Speaker addressed the supporting staff and welcomed their presence. A power point containing detailed description of STERILIZATION & DISINFECTION. Queries of the delegates were welcomed and the answers of the topic were discussed by the organising committee. The session was concluded by Faculty Development Committee.

FACULTY DEVELOPMENT PROGRAMME ON

BIOMEDICAL WASTE MANAGEMENT

PROGRAMME SHEET

NAME OF THE PROGRAMME: LECTURE ON BIOMEDICAL WASTE MANAGEMENT

CONDUCTED ON: 20.11.2018

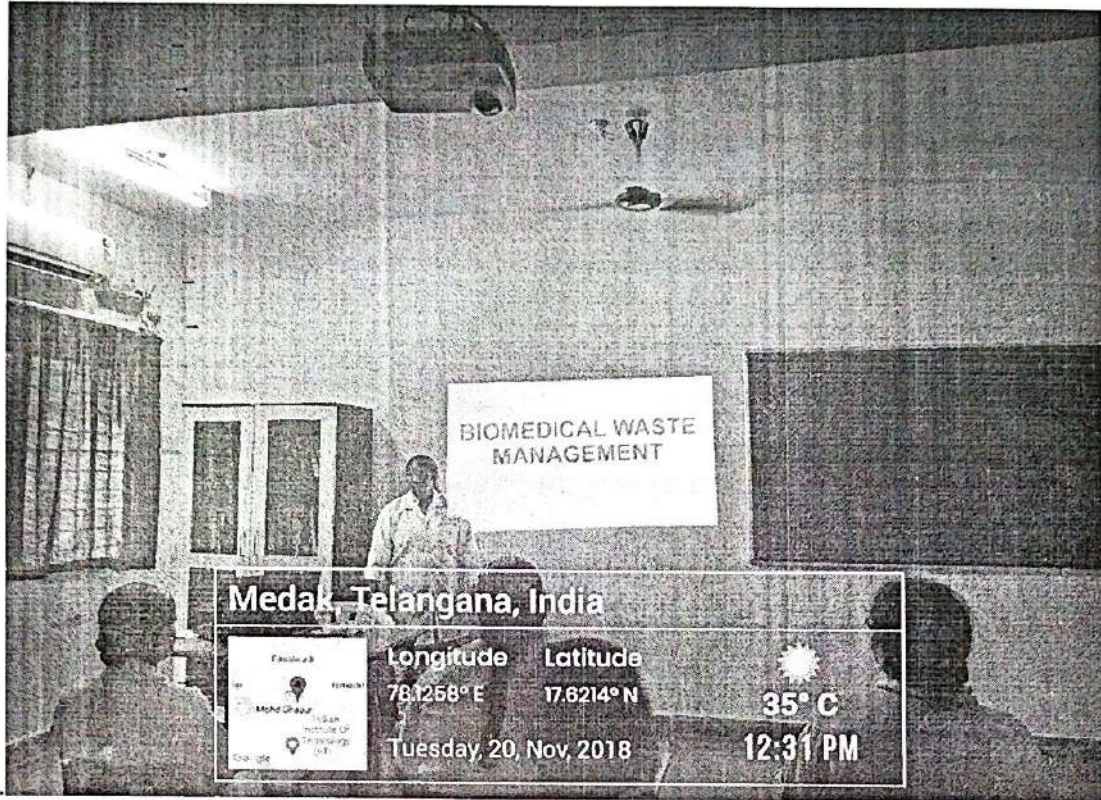

JUSTIFICATION: Biomedical waste is generated from biological and medical sources & activities such as the diagnosis, prevention or the treatment of the disease. Disposal of waste is an environmental concern, as many medical wastes are classified as infectious or biohazardous and could potentially lead to the spread of infectious diseases. Steps in the management of biomedical waste include generation, accumulation, handling, storage, treatment, transport & disposal.

CONDUCTED BY: Faculty Development Committee

REPORT OF THE ACTIVITY: The programme was conducted for one hour from 2 to 3 pm. The session began with a welcoming note by Dr. Anitha. The speaker of the programme was Dr. Rupa Rani. The speaker addressed the supporting staff and welcomed their presence. A power point containing detailed description of BIOMEDICAL WASTE MANAGEMENT. Queries of the delegates were welcomed and the answers of the topic were discussed by the organising committee. The session was concluded by Faculty Development Committee.
