TO,
ALL MEMBERS OF MNR DENTAL COLLEGE

SUBJECT: Eradication of Plastic from Campus

Dear All Members of MNR Dental College:

As all of us know that plastic is very harmful to us and our future generations. In the 21st century, pollution is a big threat to human life. Plastic is one of the main causes of pollution. Biodegradable plastic is merely a myth. Therefore, an Institute-level initiative has been launched to eradicate plastic from MNR Dental College & Hospital. For this, we should stop using plastic carry bags, plastic bottles and plastic containers which are not environmentally friendly. Instead, we should use eco-friendly bags (i.e., bags made of cotton, jute, paper and other such materials) and eco-friendly plastic containers only. To support this initiative, we should cultivate the habit of carrying eco-friendly bags/containers for shopping.

I would like to appeal to all of you to extend your full cooperation in making this initiative a complete success.

With Best Regards,

Dr Ravindra SV
