Subject: Award of Prime Minister's Fellowship for Doctoral Research

Dear Vijaykumar,

Congratulations!

I am happy to inform you have been selected to receive the prestigious scholarship 'Prime Minister's Fellowship for Doctoral Research'. This is a unique, highest-paying scholarship of Science & Engineering Research Board, Department of Science and Technology, Government of India and Confederation of Indian Industry. Your application went through a rigorous selection process, and was scrutinized by high level Apex Council comprising experts from academia and industry.

The aim of the Prime Minister's Fellowship Scheme is to bring industry closer to academia through cutting-edge research and give the benefit of dual exposure to both industry and academia to PhD scholars. With companies from across the world and top notch academic and R&D institutions of India partnering in this scheme, the Government and industry are hopeful of creating a new kind of research movement in the country which will nurture the talent of bright young scholars and make them industry-ready.

I congratulate you on being selected to receive this scholarship and wish you the best in your academic and personal endeavours.

As a next step, you are required to sign a Memorandum of Agreement (MoA) with your institute and industry partner for clarity of roles and responsibilities of each party involved. A suggested template of the MoA is attached for your reference. You may suitably modify or alter it as per your requirement.

It will be your responsibility to get the requisite portions in the MoA (marked in red) filled and signed. Make four copies of it (one for each party), have the authorized personnel sign each page of all the copies of the MoA and send them to us at the address given below for us to sign and send back three copies to you.
