PROGRAM REPORT

Program Name: Seminar on good clinical practice- insight on clinic setup and patient management

Date of activity: 10/5/2021

Venue: Biochemistry Demo Hall 2

Organized by: MNRDCH

Resource person: DR.Sudhakar Bangera,Managing partner AILEEN Clinical Research Services,India

Number of participants: 40

Objective of the program

The main objective of the seminar is to make everyone aware and protect our environment from pollution and contamination and repair and reduce the damage caused by pollution. Irresponsibly disposed of waste can lead to various diseases and can harm people.

Contents Delivered

- Separation (segregation)
- Identification (different color-coded bags)
- Handling (collection, measurement, storage, transport)
- Treatment (off-site and on-site)
- Disposal.

Outcome of the program

The seminar concentrated on the good clinical practice by learning basics of how to handle the clinical set up.

PROGRAM REPORT

Program Name: "Importance of IPR in Academic and Clinical Research"

Date of activity: 3/3/2021

Venue: Redlass Inn

Organized by: MNRDCH

Resource person: Dr. Shiva Ramakrishna, IDA past president

Number of participants: 96

Objective of the program

The primary objective of clinical research studies includes improvement in patient management. Most clinical research studies are aimed at discovering a new/novel drug to treat a medical condition that presently has no specific treatment, or the available drugs are not particularly effective in curing the disease. Intellectual property rights (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time.

Contents Delivered

- 1) Exploratory research and aims –
- 2) Descriptive aims –
- 3) Causal- Thank you for reading our article about aims of researches.
- 4) Patents terms and meanings
- 5) Procedure to get patents registered and its importance

PROGRAM REPORT

Program Name: "Insight Research in Dentistry and how and when to carry out a research, how to get patent right for research carried out"

Date of activity: 10/12/2020

Venue: Demo Hall-II, Biochemistry

Organized by: MNRDCH

Resource person: Dr Shaila Parveen, Incubation Centre Manager, Sristi BIRAC Bionest, Ahmedabad

Number of participants: 52

Objective of the program

India has made significant strides in competing for Trade Related Intellectual Property Rights (TRIPS) agreements and compliance with US and European Intellectual Property Rights (IPR) structures. The twenty-first century can be referred to as the century of technology, knowledge, and, in fact, the intellectual regime. The country's ability to translate knowledge into wealth-creating innovation will determine its future. Thus, innovation is thought to be the key to transforming knowledge into wealth. As a result, issues concerning the generation, evaluation, protection, and exploitation of intellectual property (IP) would become critically important all over the world.

Contents Delivered

- Provision for registration
- Provision for infringement
- Infringement of patent
- Infringement of patent
